Christian Rhodes

Software Developer

About Me

I am a junior studying computer science at the University of Vermont. I am a creative and driven problem-solver that works well on individual tasks or in a team-setting. Learning new programming techniques and design philosophies is fulfilling to me and pushes me to expand my skillset and social circle. I am a fast learner and good listener, two things I see to be valuable for a young and ambitious developer.

EDUCATION

University of Vermont – B.S. in Computer Science

September 2019 – May 2023   *Burlington, VT*
Cumulative GPA: 3.21
